**Subject: Recommendation letter for Zaccarie KANIT**

I am pleased to strongly recommend Mr. Zaccarie Kanit, who completed an internship at our company, Bertin Technologies, from March 1, 2024, to August 31, 2024. During this period, Mr. Kanit worked on the infrared image processing project on FPGA under my supervision.

Mr. Kanit distinguished himself by his exceptional efficiency and motivation. He quickly adapted to our work environment and demonstrated a great ability to grasp complex technical concepts. His work was of remarkable quality, and he made significant contributions to the advancement of our project.

In addition to his technical skills, Mr. Kanit demonstrated an excellent team spirit and a high level of autonomy. He took relevant initiatives and was always willing to help his colleagues. His rigor and professionalism were greatly appreciated by the entire team.

I am convinced that Mr. Kanit will bring significant value to any organization fortunate enough to have him. I recommend him without reservation for any future professional opportunity.

Please feel free to contact me for any additional information.

Sincerely,

Morgan VIGNOLLES
